

## HYBRID

The iComfort Hybrid is the perfect blend of groundbreaking foam technology and an advanced coil system. With carbon fiber-infused memory foam in every bed and an innerspring system of individually wrapped coils, your sleep will be more comfortable than ever.

### Carbon Fiber Memory Foam

Every iComfort mattress is made with our exclusive Carbon Fiber Memory Foam. This system channels heat away from your body and provides exceptional strength for back and neck support.

### Gel Active<sup>®</sup> Max Memory Foam

This open celled memory foam helps promote airflow, so you don't have that hot, stuffy feeling when falling asleep.

### UltraCold System<sup>™</sup>

This layer of extra-cool Carbon Fiber Memory Foam is engineered to work hard at absorbing excess heat from your body, then channel it away, all while you sleep comfortably.

### Air Support<sup>™</sup> Foam

This exclusive air-cushion technology moves with your body and smartly contours around it to help alleviate aches and pains caused by pressure points.

### 1025 iComfort<sup>®</sup> Hybrid Support<sup>™</sup> System with BestEdge<sup>®</sup> Foam Encasement

In this advanced innerspring system, individually wrapped coils work independently to conform to every curve of your body and provide durable support.
