

• With iComfort, cool, comfortable sleep is the priority. Multiple layers of cooling technology and groundbreaking carbon fiber-infused memory foam make for the coolest, most comfortable sleep ever.

Carbon Fiber Memory Foam

Every iComfort mattress is made with our exclusive Carbon Fiber memory foam. This system channels heat away from your body and provides exceptional strength for back and neck support.

Gel Active[®] Max Memory Foam

This open celled memory foam has more airflow than traditional memory foam so you don't have that hot, stuffy feeling when falling asleep.

UltraCool System

This layer of extra-cool Carbon Fiber memory foam is engineered to work hard at absorbing excess heat from your body, then channel it away, all while you sleep comfortably.

Air Support Foam

This exclusive air-cushion technology moves with your body and smartly contours around it to help alleviate aches and pains caused by pressure points.
